

# HANNALENE

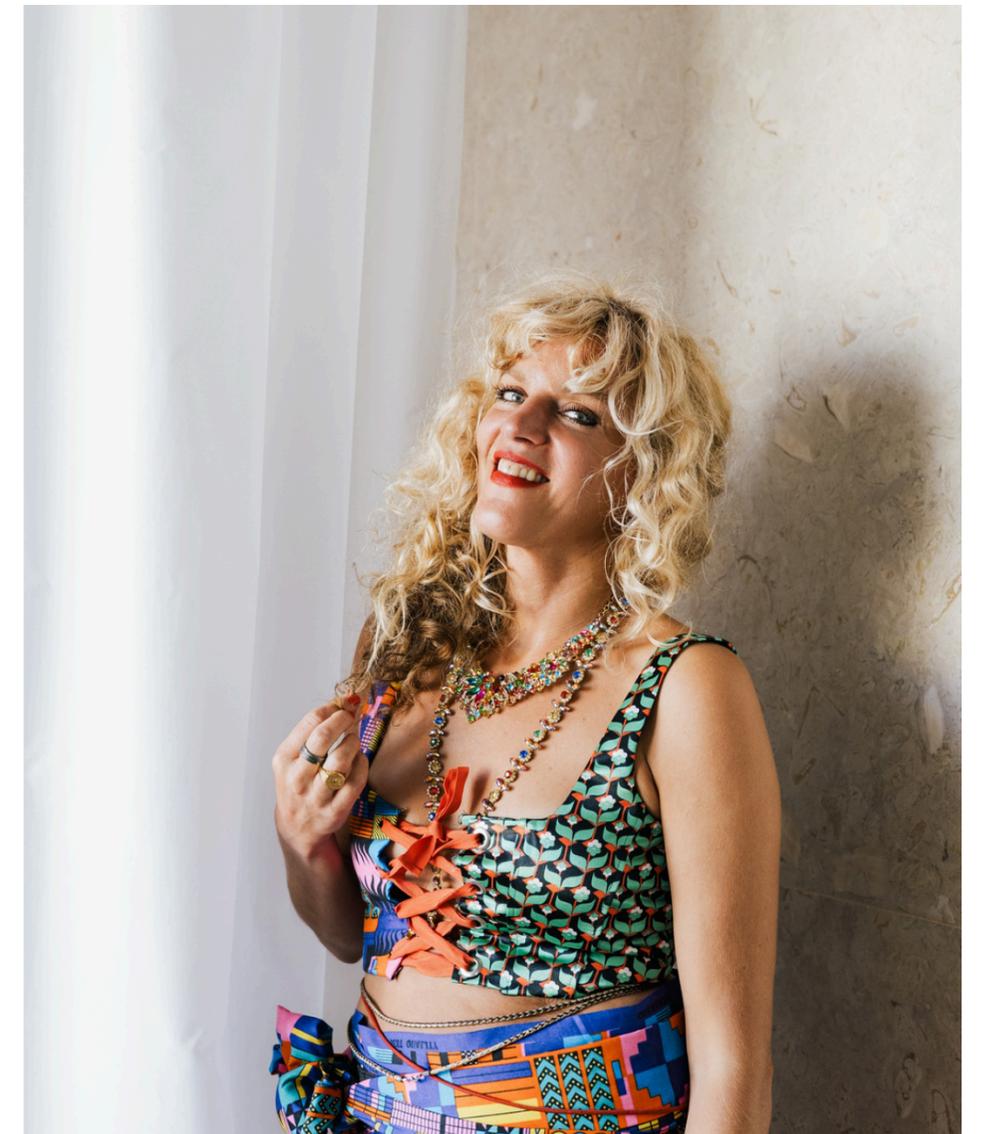

## ABOUT

Born and raised in Berlin, Hannalene is a genre-defying artist and sonic facilitator whose music lives at the intersection of soul, world, reggae, and sonic alchemy. More than entertainment, her artistry is rooted in the belief that music is medicine — a tool for presence, emotional release, and transformation.

Her voice carries both intimacy and power, opening spaces where audiences often describe feeling “uplifted, shifted, and deeply touched.”

With every performance, Hannalene invites listeners to shift frequencies, awaken inner strength, and reconnect with joy.

# GOLD

EP (2024–25)

GOLD is Hannalene's latest EP — a 5-song EP tracing a journey of transformation — from longing to release, from darkness into light.

---

Across warm grooves, soulful vocals, and world-inspired rhythms, it explores themes of self-remembrance, courage, and emotional rebirth.

Created between Berlin and Lisbon with musicians from Angola, Nigeria, Brazil, and Portugal, GOLD blends African-influenced drums, deep bass, and soulful guitar lines into a sound that is both global and intimate.

GOLD carries the essence of Hannalene's artistic approach: music as medicine — sound as a space for healing and transformation.

With a full-length album now in development, GOLD marks both a culmination and the beginning of a new chapter.
